

CAMPP -- Citizens for an Accountable Megahospital Planning Process

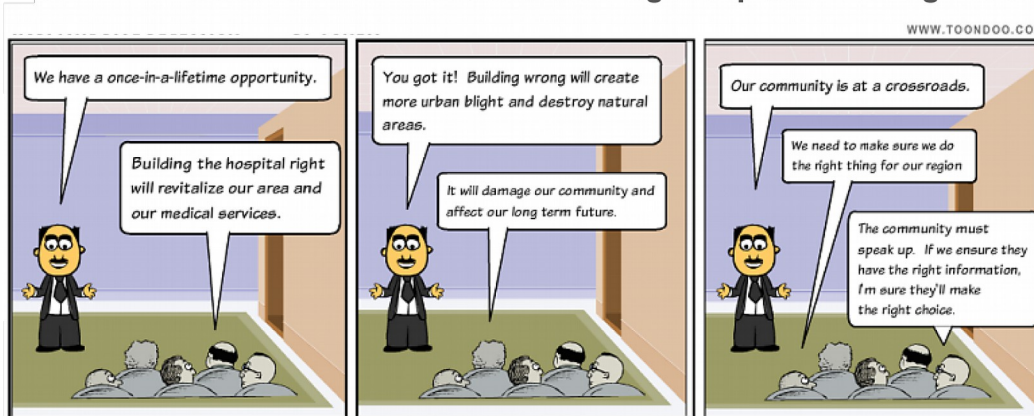

We believe our new hospital must be built near the heart of Windsor to benefit all of Essex County

1. Hospitals are more integrated into the community than any other institution. We must not let decision makers ignore the sound urban planning principles that make a community whole.
2. An urban hospital can be built with plenty of parking and with the potential for future expansion.
3. An urban hospital allows your doctor to respond to emergency calls faster.
4. An urban hospital on a great access route is easier for everyone to reach whether they arrive by ambulance, car, taxi, bus, bike or on foot, and whether they live in the county or the city.
5. A vibrant Windsor will attract young professionals and investors. When institutions, businesses and people move to the outskirts, it hurts community engagement and business.
6. This is a once-in-a-lifetime opportunity. Build right and revitalize our area. Build wrong and create urban blight, destroy natural areas and damage our community.

What can you do?

Visit the hospital's Steering Committee's website, at www.windsorhospitals.ca and complete their survey – or use the comments section on the survey to voice your concerns.

Visit CAMPP's website at www.WindsorMegahospital.ca. Read more about the issue, read MPP candidate responses to our questions and take our survey. We'll be sure the hospital planners get survey results.

Join our Facebook group: Windsor Essex Residents for an Urban Campus Mega-hospital.

Have your community group(s) write a letter to the Steering Committee to let them know your views on the importance of an urban site for the hospital. Send us a copy of your letter so we can post it on our website. windsorcampp@gmail.com

Download printable materials from our website and share them with family, friends and co-workers.

Stay connected with us through our facebook group and watch for more opportunities to voice your concerns.
